Press Brakes

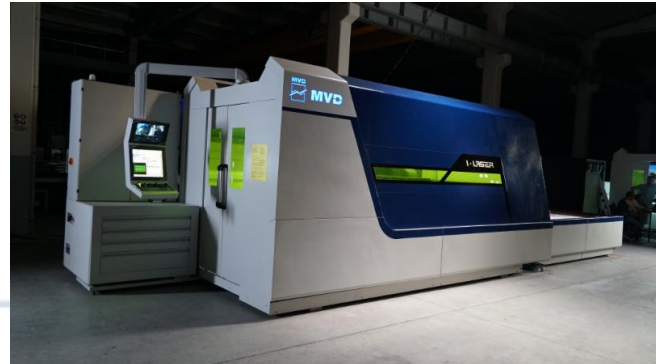

iBend brakes shape the future

- Reliable, durable, and precise
- Top-of-the line components
- Choice of controls and safety systems
- 3-12 axes
- 40 – 1,000 tons
- 4' – 26.5' bending lengths

Fiber Lasers

iLaser: speed, technology, performance

- 2kW, 3kW, and 4 kW models
- 6.5 – 20' tables
- IPG resonators
- Precitec cutting heads
- Shuttle table/flying optic design

Flow Forming Metal Spinning

World leader in chipless metal forming

- Cutting edge technology for:
- Flow forming
- Metal spinning
- Edge processing
- Hub spinning
- Profiling

RODSTEIN

Busbar Punching and Bending

Automated busbar processing

- All electric, servo driven
- Automatic tool changing
- Robot ready
- Fast, energy efficient
